

#Metal or direct selection

After taking any door...(eye opening process required peace sleeping shifting lane slowly to wake up 100% trying breathing not...there next stop

When they are pulling u in sure don't take breath for a second in a row...one is comfortable lane and one is fixed lane 2min...

Or select eye roll process to wake in next room {where half eye lid we have to lock in the middle}...)

vapour mode on...to fly and to convert yourself into gas and taking exit always...

Aligned you hip bone correctly to stay away from back pain
